

FIBERGLASS POOLS 2025

AMERICAN POOL & SPA

FIBERGLASS POOL INSTALLATION PROCESS

Who We Are?

We are confidently one of the best pool companies in Central Kentucky with a reputation that precedes us.

What We Do?

Quality Fiberglass pool installation, Turn-Key Projects, Dedicated project manager on every job, which equals better communication.

Our Process:

Your vision - 3D rendering - Pool contract agreement - install pool - educate you on your pool -and we offer pool openings - pool closings - & weekly maintenance. We can service the pools we build.

We also offer services for the pools we build.

1. Call 811 (We do that for you)
2. Pull Permit (We do that for you depending on city)
3. Layout the pool in the yard. (Team Effort)
4. Have a homeowner sign off on the location of the pool.
5. WORK STARTS!! If there's no rain... 

Your dream starts coming true!

1. DON'T FREAK OUT!! YOU hired us to tear your yard apart...its construction!!
2. Day 1: We dig the hole for the pool.
3. Day 2: We place rock in the bottom of the hole for the pool to set on.
4. Day 2: We set the pool in the hole with a Crane
5. We only use ROCK (#57's) completely around our pools. NEVER use SAND!! You should never backfill with anything but clean stone.

Starting to see yourself swimming?

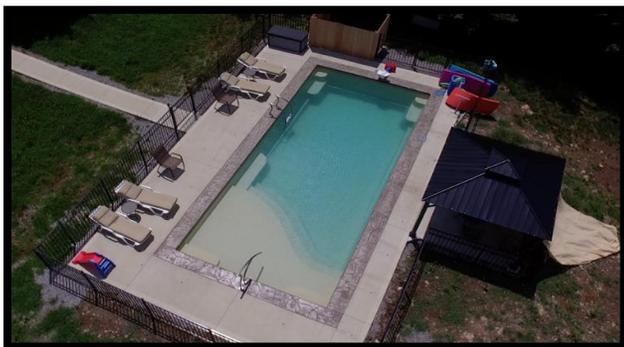

1. Pool is set
2. We lock the pool in place
3. Plumbing & lighting being installed
4.  Measurements are extremely important.
5. Backfill with #57's
6. The Green pipe is a "WELL" used to see underground water

Watch our [#PoolGuys](#) Episodes!!

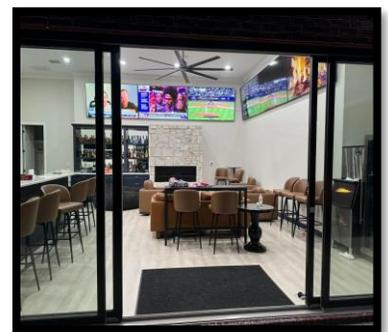

#POOLGUYS

1. FINISHED POOL
2. 16" Cantilever coping boarder around the pool.
3. Two tone concrete color mix
4. Darker tan around the pool coping boarder at 16" to 21"
5. The rest of the concrete is a broom finish w/ light tan color
6. Where the chairs are located the customer has 10' of concrete to be able

FIBERGLASS POOLS 2025

POOL HOUSES & PAVILIONS

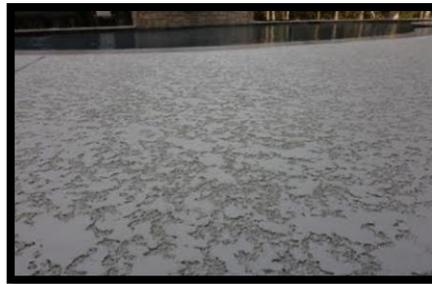

FIBERGLASS POOLS 2025

TYPES OF POOL DECKS

Standard broom finish concrete: textured, slip-resistant, brushing a broom over wet concrete.

Cool Deck concrete: decorative concrete technique that is 30% cooler than standard concrete.

Travertine: natural stone pavers.

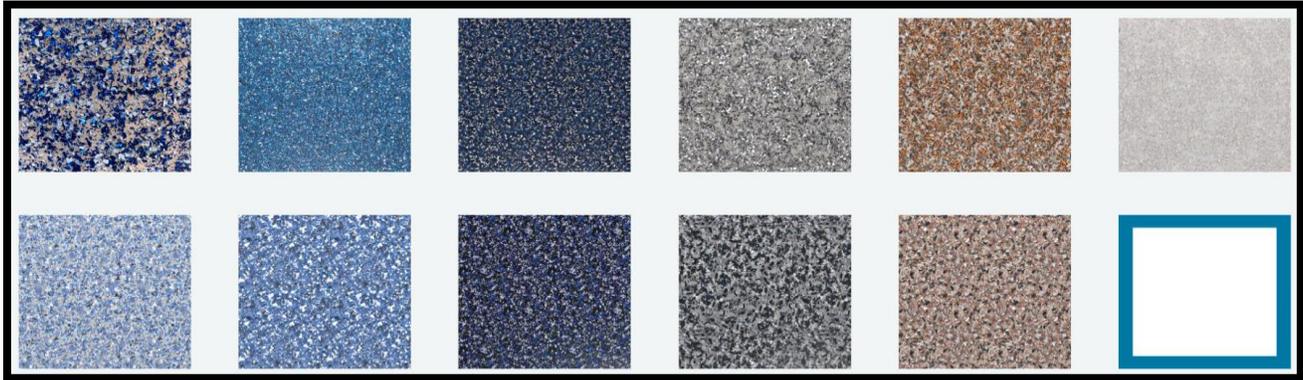

Stamp concrete coping border

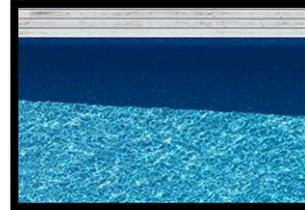

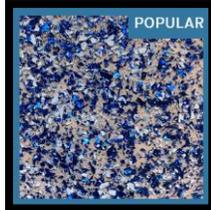

Paver pool decks: type of flooring that are made from materials like stone, brick & concrete.

<p>Crane: standard small crane installation. Crane is used to set the pool. (Over the house is extra cost.)</p>		<p>Included</p>

FIBERGLASS POOLS 2025

Things you need to know:

1. **Permits:** Depending on your city and location whether pool permit is included or not. We include permits in our main service area. Our Salesman will discuss and quote accordingly with you. Depending on your property and your city/county codes office we may need your help. Example Fayette County/Lexington we need to submit pool permit and fence details at the same time.
 - Ballpark Prices: \$250 to \$650 depending on the city or county & project.
2. **Dig Day:** Before we start digging in your backyard, we will want to finalize the exact layout of your pool and project with you. You must be present to sign off on Pool layout/location in yard for placement of pool and project.
3. **Fence: *We can quote and install***
 - “If” we are installing your fence disregard below.
 - Homeowner responsible for their own fence installation.
 - Must refer to your local codes.
 - Homeowner responsible for their own drawing for pool permit of their fence installation.
 - Homeowner responsible to remove fence for access to backyard. Refer to contract.
4. **Electrical: *We highly recommend you using our electrician.***
 - We have installed over 100’s of pool and our electrician has almost done all of them.
 - Our electrician we trust, works with us, and is there when we need them.
 - Heat Pump: License plumber not needed. Electricians and homeowners must know what proper breaker and installation methods.
 - Gas Heater: Homeowner responsible for paying for a licensed plumber/Gas company to install gas line and connection into pool heater.
 - Propane Heater: Homeowner responsible for paying for a licensed plumber/Propane company to install Propane tank, line and connection into pool heater.
 - Ballpark Prices: \$6,500 to \$7,500 on average.
5. **Rock:**
 - American Pool & Spa provides rock to properly backfill the pool standard installation. The price on this PDF is considered standard.
 - The allotted amount is \$1,800 and anything more than that is Homeowner’s responsibility. For example: If more rock is needed for the backside of the pool because your yard is not level, then the homeowner must pay the additional rock cost. When we quote the pool we try to plan for this in your pool quote.
 - If we hit “rock” underground this is also extra cost for labor, equipment rental and materials. Anything unforeseen is homeowners’ responsibility to pay for.
6. **Crane:**
 - Included in the standard installation price.
 - Due to access, the homeowner is responsible to pay for the additional crane cost if we must go over the home. Extra cost could be anywhere from \$3,200 to \$6,500.
 - Also, all yards are different, and weather plays a huge factor in installing the fiberglass pool.

**Note: “This quote is an estimate of fees or costs that we anticipate will be incurred, these estimates are not intended to be binding, are subject to unforeseen circumstances, and are by their nature inexact. Final pricing and additional costs can be found in the contract Homeowner signs.”*

(Disclaimer) All pool projects and installations are custom to your backyard specifically. We as pool professionals try to do our best and hold ourselves to the highest level of proper pool installation. The scope of work is based on your needs that need to be addressed for a proper installation.

ACCESSORIES OPTIONS: *(Additional Cost to All Pool Quotes)*
