

CREATIVE CONCRETE

When it comes to pool decks, Creative Concrete is Central Kentucky's best choice. We use a slip resistant acrylic concrete coating that is sprayed instead of being applied on the surface. Along with its trowel finish it enhances traction making the pool deck less slippery even with bare-feet.

Not only are our pool decks safe, they're enhanced with H&C Cool Feel making concrete up to 30% cooler! Cool Feel Comfort Step Technology reduces the temperature of concrete surfaces exposed to UV rays, making walking on your concrete surfaces more comfortable for people and pets.

Every pool deck has an opportunity to be interesting and unique. There are different enhancements that can be customized that will turn heads. Color choices come in a wide range of options along with choices like stamped overlays. Let Creative Concrete help make your pool everyone's favorite spot of the house.
